Unique Student Identifier (USI)										
From 1 January 2015, LCA can be prevented from issuin					d VET q	ualificat	on or sta	atement	of attain	ment
when you complete your course if you do not have a Uni-	que Stud	dent Ider	ntifier (U	SI).						
If you have not yet obtained a USI you can apply for it dir	rectly at	http://ww	vw.usi.go	ov.au/cre	eate-you	r-USI/ o	n compu	ter or mo	obile dev	ice.
20. Enter your unique student identifier										
If you already have one										TI.
21. If you do not have a USI, would you like							<u>d</u>			
us to apply for a USI on your behalf?	<u>applica</u>	ation dec	laration.	<u>.</u>						
us to apply for a OSI off your benan?		No –	skip to	next sec	<u>tion</u>					
APPLYING ON YOUR BEHALF										

If you would like LCA to apply for a USI on your behalf you must authorise us to do so and declare that you have read the privacy information at https://www.usi.gov.au/documents/privacy-notice-when-rto-applies-their-behalf

You must also provide some additional information as noted at the end of this form so that we can apply for a USI on your behalf. Please provide your town/city of birth and ensure that the name written in 'Personal Details' section is exactly the same as written in the document you provide below.

In accordance with section 11 of the *Student Identifiers Act 2014*, LCA will securely destroy personal information which we collect from individuals solely for the purpose of applying for a USI on their behalf as soon as practicable after we have made the application or the information is no longer needed for that purpose, unless we are required by or under any law to retain it.

Town/City of Birth (please write the name of the Australian or overseas town or city where you were born)

22. We will also need to verify your identity	ty to create your USI. Please provide de	tails for one of the forms of identity

DISABILITY SUPPLEMENT

If you indicated the presence of a disability, impairment or long-term condition, please select the area(s) in the following list: Disability in this context does not include short-term disabling health conditions such as a fractured leg, influenza, or corrected physical conditions such as impaired vision managed by wearing glasses or lenses.

'11 - Hearing/deaf'

Hearing impairment is used to refer to a person who has an acquired mild, moderate, severe or profound hearing loss after learning to speak, communicates orally and maximises residual hearing with the assistance of amplification. A person who is deaf has a severe or profound hearing loss from, at, or near birth and mainly relies upon vision to communicate, whether through lip reading, gestures, cued speech, finger spelling and/or sign language.

'12 - Physical'

A physical disability affects the mobility or dexterity of a person and may include a total or partial loss of a part of the body. A physical disability may have existed since birth or may be the result of an accident, illness, or injury suffered later in life; for example, amputation, arthritis, cerebral palsy, multiple sclerosis, muscular dystrophy, paraplegia, quadriplegia or post-polio syndrome.

'13 - Intellectual'

In general, the term 'intellectual disability' is used to refer to low general intellectual functioning and difficulties in adaptive behaviour, both of which conditions were manifested before the person reached the age of 18. It may result from infection before or after birth, trauma during birth, or illness.

'14 — Learning

A general term that refers to a heterogeneous group of disorders manifested by significant difficulties in the acquisition and use of listening, speaking, reading, writing, reasoning, or mathematical abilities. These disorders are intrinsic to the individual, presumed to be due to central nervous system dysfunction, and may occur across the life span. Problems in self-regulatory behaviours, social perception, and social interaction may exist with learning disabilities but do not by themselves constitute a learning disability.

'15 - Mental illness'

Mental illness refers to a cluster of psychological and physiological symptoms that cause a person suffering or distress and which represent a departure from a person's usual pattern and level of functioning.

'16 — Acquired brain impairment'

Acquired brain impairment is injury to the brain that results in deterioration in cognitive, physical, emotional or independent functioning. Acquired brain impairment can occur as a result of trauma, hypoxia, infection, tumour, accidents, violence, substance abuse, degenerative neurological diseases or stroke. These impairments may be either temporary or permanent and cause partial or total disability or psychosocial maladjustment.

'17 — Vision'

This covers a partial loss of sight causing difficulties in seeing, up to and including blindness. This may be present from birth or acquired as a result of disease, illness or injury.

'18 - Medical condition'

Medical condition is a temporary or permanent condition that may be hereditary, genetically acquired or of unknown origin. The condition may not be obvious or readily identifiable, yet may be mildly or severely debilitating and result in fluctuating levels of wellness and sickness, and/or periods of hospitalisation; for example, HIV/AIDS, cancer, chronic fatigue syndrome, Crohn's disease, cystic fibrosis, asthma or diabetes.

'19 — Other'

A disability, impairment or long-term condition which is not suitably described by one or several disability types in combination. Autism spectrum disorders are reported under this category.
